

**From 24 Jan to 23 Feb 2011**

**Apply for \$5000 Innovation Voucher (IVS) from SPRING Singapore**

**Open to all SMEs**

A Peep into Our IVS Projects:

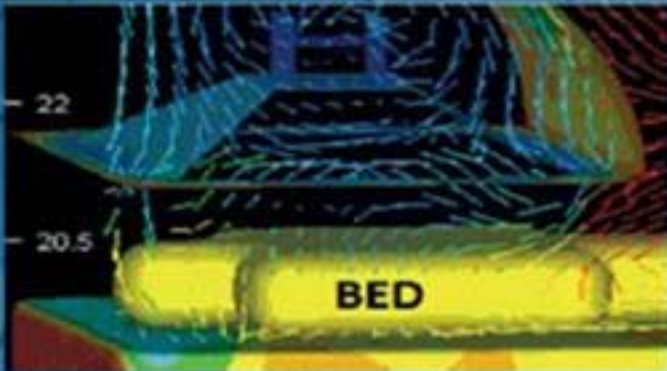

Waste Management

*An innovative material, created from a composite of recycled plastic and wood, that offers an alternative to conventional wood. It performs better, can be cheaper than virgin wood and has endless applications - for furniture, decking, automobile, etc.*

Energy Efficiency

Computational Fluid Dynamics (CFD) for Human Comfort

*Simulation of desired micro-climatic conditions can lead to innovative designs of personalised systems for individual human comfort and improves energy usage.*

**Contact us to discuss how we can collaborate with you under the Innovation Voucher Scheme.**

***Companies previously awarded Innovation Voucher can only reapply 12 months after their project completion.***

**Contact Persons:**

Bettie Chiew / Norizan
